OneLight™ ReadyHub™

WHY PROCEDURAL READINESS MATTERS

GIVE ONELIGHT PRODUCTS A DEFINED HOME.
The OneLight™ ReadyHub™ combines designated storage with a removable procedure tray for carrying selected products to the point of care.

HELP CARE TEAMS PREPARE.
Setup Cards show which products may be needed for supported procedures.

MAKE STOCKING NEEDS EASIER TO SEE.
Visual cues show where products belong and provide a reference for replenishment.

KEEP PRODUCT GUIDANCE CLOSE AT HAND.
Bionix Clinical Education provides product instruction, procedural demonstrations and practical guidance.

BRING THE SAME APPROACH TO MORE ROOMS.
The OneLight™ system can support additional clinicians, exam rooms and locations as practice needs grow.

> *"ReadyHub makes preparation visible by giving the care team a defined place for products and a consistent way to prepare, carry and return what the procedure requires."*

OneLight™ ReadyHub™

BRING READINESS TOGETHER.

The OneLight™ ReadyHub™ Procedure Staging System gives OneLight tools and accessories a defined home, helping care teams keep appropriate products ready for supported procedures.

PREP. CARRY. RETURN.

PREP – Use the appropriate Setup Card to prepare the procedure tray.
CARRY – Bring selected OneLight products to the point of care.
RETURN – Return the tray and products to their defined locations.

ReadyHub Procedure Staging System brings illuminated procedural tools, preparation guidance and clinical education together in one connected ecosystem.
