Lighted Articulating Ear Curette™

The 90° articulating tip allows access behind the occlusion

Precision illumination.
Behind-the-obstruction access.
Confident care.

Why Clinicians Choose Bionix®

Reach Behind Cerumen and Foreign Bodies
More than a tool, it's a purpose-built solution designed to support procedural clarity, safety and clinical efficiency.

Designed for safer, more precise procedures
Integrated light and magnification give clinicians a clear view deep into the ear canal. The 90° articulating VersaScoop® tip allows access behind the occlusion, enabling controlled removal under direct visualization and supporting safer cerumen and foreign body removal.

Enhanced patient comfort and confidence
Working behind the obstruction means less manipulation and less risk of canal irritation – improving patient experience, especially in pediatric or sensitive cases.

Simple, intuitive operation
A familiar curette form factor combined with integrated illumination and magnification makes it easy for clinicians to adopt and use effectively across care settings.

A smart investment
Single-use tips support infection control. The Lighted Articulating Ear Curette is also available now for use with the OneLight™ Rechargeable Light Source for long-term saving and value.

Lighted Articulating Ear Curette™

Why Behind-the-Obstruction Access Matters

- Obstructions often cannot be safely removed from the front.
- The articulating VersaScoop® tip lets clinicians get behind the material eliminating blind sweeping motions and providing direct visualization throughout the procedure.

Product Offering:

#2511 – Lighted Articulating VersaScoop (3mm tip)
Includes:
- 25 Lighted Articulating VersaScoop Tips
- 1 Original Light Source
- 1 Magnification Lens

#2512 – Lighted Articulating VersaScoop (3mm tip) Refill Pack
Includes:
- 25 Lighted Articulating VersaScoop Tips

#2200 – Extra Original Light Source
#3600 – OneLight™ Rechargeable Light Source
#2265 – Pack of 5 Magnification Lenses

Cerumen or Foreign Body CPT Codes:

69210 – Removal of impacted cerumen
69200 – Removal of foreign body from ear canal
30300 – Removal of foreign body from the nose

Backed by Bionix®

With more than 40 years of innovation across ear, nose and throat care, Bionix is trusted by clinicians for tools that enhance visibility, precision and patient-focused performance.
