EXCLUSIVE GOVERNMENT PRODUCT OFFERING

Bionix® OtoClear® Single-Use SprayWash Kit

A disposable ear irrigation system that is simple to use, effective for compacted cerumen removal and eliminates messy clean-up.

PRODUCT OFFERING

#7291: OtoClear® Single-Use SprayWash Kit

CONTENTS:

- (1) Bionix SprayWash bottle
- (1) Trigger Sprayer
- (1) OtoClear® tip
- (1) Adapter Wand

FEATURES

- Designed with OtoClear® tip made of soft, flexible material for patient comfort
- Unique OtoClear irrigation tip directs water toward the ear canal wall in three separate streams to gently loosen and remove unwanted particles
- Efficient design allows for a two-handed procedure and manual, intermittent lavage
- Includes a Bionix SprayWash bottle (500ml)

BENEFITS

- Allows healthcare professionals to utilize the soft, flared, 3-streamed tip to remove ear cerumen
- Delivers great volume compared to syringes or other manual devices
- Flared tip design prevents backsplash and over-insertion, reducing patient discomfort and increasing patient safety
- Reduces the risk of causing perforation to the ear drum
- Significant cost savings due to single-use system
- Meets all infection prevention guidelines for the Government

“Our office is very happy with the soft (OtoClear) tips. They are easier to maneuver in the ear canal and more comfortable for the patient.”

- Laura Griffith, MA
