

OneLight™

BY BIONIX

Brilliantly Connected

A Revolutionary Illumination Platform for Confident In-Office Care

ENABLING BETTER CARE

- Ultra-white illumination supports clear visualization during ear, nose and throat procedures.
- A growing suite of compatible lighted tools enables common procedures in-office, helping minimize referrals and keep care within the practice.

OPTIMIZING WORKFLOW

- One Rechargeable Light Source powers all compatible Bionix® illuminated tools, simplifying training and inventory.
- In testing, OneLight delivered efficiency gains of more than 22%.*

*Based on Bionix Technical Report QCR-00113

DRIVING ECONOMIC VALUE

- A Rechargeable Light Source eliminates replacement of disposable light sources.
- Affordable refill packs support simple, cost-effective replenishment.

POWERED BY BIONIX

Proven leadership. Purposeful innovation.

One Platform. Expanded Capability.

Everything you need for common ear, nose and throat procedures – powered by one Rechargeable Light Source.

Rechargeable Light Source

The foundation of the OneLight™ Illumination Platform.

Why it matters clinically:

- Ultra-white illumination for consistent, true-color visualization
- Supports improved procedure efficiency*

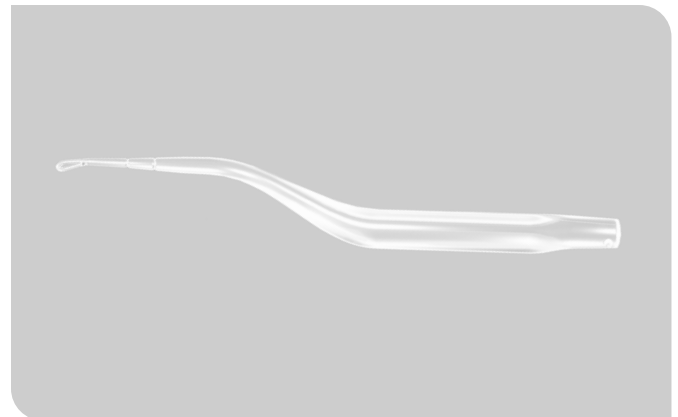

*Based on Bionix Technical Report QCR-00113

ClearLook® Lighted Ear Curettes™

Clinical Use: The standard for routine cerumen impaction management.

- Illuminated tips support precise visualization
- Variety pack supports different types of cerumen and anatomies
- Designed for confident, in-office curettage featuring a less obstructed view
- Single-use design supports infection control

Lighted Articulating Ear Curette™

Clinical Use: Challenging cerumen and foreign body removal cases.

- A 90° articulating tip supports difficult cerumen and anatomy
- Direct illumination at the working tip
- Designed for efficient removal of hard cerumen

Lighted MicroSuction System

Clinical Use: For precise removal of cerumen and round, smooth foreign bodies.

- Combines quiet, portable suction and light in one instrument
- Supports clearer visualization during removal
- Designed for confident in-office microsuction

Lighted Magnetic Foreign Body Removal Tool

Clinical Use: Removal of visible, accessible metallic foreign bodies.

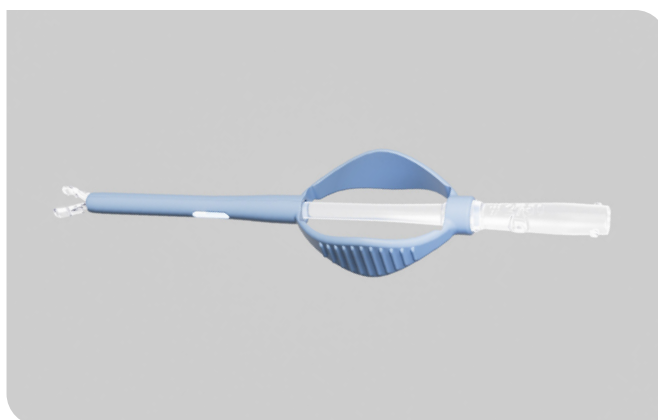

- More than 2 lbs of pull force – enough to hold a 9V battery
- Direct illumination supports visualization of the metallic object
- Designed for ear, anterior nasal cavity and oropharynx

Lighted Forceps for Foreign Body Removal

Clinical Use: Removal of soft or leafy foreign bodies.

- Direct light at point of grasp
- Controlled removal under visualization for soft or leafy foreign bodies from the ear or nose
- Single-use supports infection control

OtoClear® Aquabot® Irrigation System

Clinical Use: To flush cerumen or foreign bodies from the ear canal.

- Soft three-stream OtoClear® Tips designed for patient safety and comfort
- Single touch, continuous controlled irrigation flow
- Improves workflow efficiency

One Light Source. Multiple Procedural Solutions. Thoughtful Combination Packs.

OneLight™ Exam Room Essentials Combination Pack

Best for: High-volume primary and urgent care settings performing routine ear, nose and throat procedures.

#1000 - Includes:

- ClearLook® Lighted Ear Curette™ Variety Pack (with Rechargeable Light Source)
- Lighted Forceps Refill Pack
- Lighted Magnetic Foreign Body Removal Tool
- Lighted Articulating Curette Refill Pack
- Multi-Port USB-C Charging Base
- Wall Adapter

OneLight™ MicroSuction & Curettage Combination Pack

Illuminated microsuction and curettage in one solution.

Best for: Practices expanding in-office cerumen and foreign body management capabilities.

#1001 - Includes:

- Lighted MicroSuction Starter System (with Rechargeable Light Source)
- ClearLook® Lighted Ear Curette™ Variety Refill Pack
- Multi-Port USB-C Charging Base
- Wall Adapter

OneLight™ Complete Ear Care Combination Pack

Best for: Practices performing both curettage and irrigation in-office.

#1002 - Includes:

- ClearLook® Lighted Ear Curette™ Variety Pack (with Rechargeable Light Source)
- OtoClear® Aquabot® Ear Irrigation System
- Multi-Port USB-C Charging Base
- Wall Adapter
